SELOC Marine tune-up and repair manuals provide the most comprehensive, authoritative information available for outboard, inboard and stern-drive engines, as well as personal watercraft. SELOC has been the leading source of how-to information for the marine industry since 1974. Designed and written to serve the needs of the professional mechanic, do-it-yourself boat enthusiast, instructor and student, these manuals are based on actual teardowns done by Seloc's editors/authors in our on-site facility. Every manual features: -Easy-to-follow, step-by-step, illustrated procedures -Hundreds of exploded drawings, photographs and tables -Troubleshooting sections -Accurate specifications and wiring diagrams Covers all engines and drive units, including transmissions. Includes carbureted and fuel injected engines. Over 1,000 illustrations.

This work documents the rise and fall of Pacific American Fisheries, a salmon packing company based in Bellingham, Washington, which also had a substantial presence in Alaska. It covers the company's history from its beginnings when Roland Onffroy arrived in early 1898 and saw an opportunity to start a business and make a mint using the abundant supply of salmon in nearby Puget Sound, up until its closing in 1966. The company's story is presented chronologically as unfolding local, regional, national, and international events impacted the fortunes of the company, its employees, and the town that housed it. It also takes a close look at the entrepreneurs, developers, businessmen, and Asian labor force that were associated with the company. PAF's history can also be read as the story of how the United States was developed as people moved from the Atlantic to Pacific coasts and how the Pacific coast was targeted for development due to its natural resources that could easily be exploited for profit.

The first edition of Outboard Engines set the standard for a clear, easy-to-follow primer on engine basics, troubleshooting, care, and repair. This new edition, significantly expanded, brings the subject up to date, with full coverage of the new four-stroke engines, conventional electronic and direct fuel-injection systems, oil-mix systems in the new clean two-strokes, and more. You'll save time and money doing your own engine repairs and maintenance.

Useful and instructive papers advocating the value of practical considerations in the field, addressing common problems from the real world of archaeology and proposing real solutions that have proven successful through trial and error. Includes papers on the chemical reduction of clay matrices, methods of establishing precise provenience in archaeological excavations, surface collecting with the aid of transits, simplified mapping techniques, the use of X rays in artifact analysis, archaeological surveying from muleback, choosing and maintaining an archaeological field vehicle, and the use of small boats in archaeological investigations.

Pobalscoil Chloich Cheannthaola (P.C.C.) is a community school located in the Gaeltacht area of Falcarragh in the beautiful North West of Co. Donegal. Every year, 2nd-year students who participate in the Junior Certificate Schools Programme (JCSP), have the opportunity to get involved in the JCSP Make a Book exhibition. Students create a book based on a subject that is of interest to them and then display it alongside books created by students from schools all over the North West of Ireland. This wonderful showcase represents many hours of work by the students and their teachers and is a chance for students to exhibit their many skills and talents. Over the last few years, our school has been very fortunate to be able to collaborate with Pobal le Chéile, a local community development group in Falcarragh. This collaboration has been a very positive experience for the students and staff at P.C.C. and has served to help build links in the community. It has also given our JCSP students the opportunity to work with some of their greatly talented staff and learn so much through workshops, visits and talks. This year, Rang Eoin chose to create a digital book based around a tree planting project they undertook. The idea for this project came about through a donation of trees to the school and community from "Trees on the Land" which is a charity and not-for-profit project from the Green Economy Foundation in collaboration with The Woodland Trust in Northern Ireland.As a JCSP librarian, it is always a proud moment when students see their finished book for the first time and can celebrate the fact that they are authors, no mean feat at the age just of 14 or 15 years old.Sarah Ball, JCSP Librarian
