Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's

File Type PDF

premier suspension
specialist, makes
the art and science
of suspension

tuning accessible
to professional and
backyard
motorcycle
mechanics alike.

Based on Paul
Theede's wildly
popular Race Tech
Suspension
Seminars, this step-

by-step guide
shows anyone how
to make their bike,
or their kid's,
handle like a pro's.
The de gives a clear
account of the
three forces of
suspension that
you must
understand to
make accurate
assessments of
your suspension's

condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis

geometry. Finally,
step-by-step
photos of
suspension
disassembly and
assembly help you
rebuild your forks
and shocks for
optimum
performance. The
book even provides
detailed
troubleshooting
guides for dirt,

street, and supermoto--promising a solution to virtually any handling problem.

Covers maintenance, tune-up, repair and overhaul of Honda TRX250X and TRX300EX Fourtrax models.
