As many as half of children with ASD between the ages of 3 and 8 also exhibit disruptive behaviors that interfere with their overall development and family functioning. This Therapist Guide, Parent Training for Disruptive Behavior, is designed for therapists to use with parents of children with ASD and challenging behaviors, such as tantrums, noncompliance, and aggression. Based on the principles of Applied Behavior Analysis and developed over more than a decade of research, the intervention consists of 11 core sessions as well as supplemental sessions, a home visit, and follow-up visits. Each session includes a therapist script, activity sheets, parent handouts, and checklists. Video vignettes are available online to illustrate concepts. The treatment manual is designed to be used in conjunction with the companion Workbook for parents. Each session is delivered individually in weekly outpatient visits. Homework assignments between sessions focus on implementing behavior change strategies collaboratively chosen by the therapist and parent.

Tallinn Manual 2.0 expands on the highly influential first edition by extending its coverage of the international law governing cyber operations to peacetime legal regimes. The product of a three-year follow-on project by a new group of twenty renowned international law experts, it addresses such topics as sovereignty, state responsibility, human rights, and the law of air, space, and the sea. Tallinn Manual 2.0 identifies 154 'black letter' rules governing cyber operations and provides extensive commentary on each rule. Although Tallinn Manual 2.0 represents the views of the experts in their personal capacity, the project benefited from the unofficial input of many states and over fifty peer reviewers.

"I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be-their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." -Lydia Davis A MANUAL FOR CLEANING WOMEN compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.

Complete Reprint of Harry Johnson's Bartenders Manual, originally published 1882. "Harry Johnson was a professional bartender for most of his life and along with Jerry Thomas he was one of the first to write about his trade. Harry's rather opinionated thoughts on the bartending profession and how to run a bar, which takes up the first third of the book, make for a fascinating insight in to the world of nineteenth century bars. He wasn't afraid of boasting, describing one of his bars as "what was generally recognized to be the largest and finest establishment of the kind in this country," but the advice is clearly spoken from the heart about a profession he really believes in."

This how-to book caters for both the person who buys an old motor to restore and use, and the one who restores for the satisfaction of seeing a vintage piece of machinery in its original condition.
