Accutron 214 and 218 Time-Setting Instructions
Accutron 214 TV and Alpha These are very early designs. The early Accutron 214 movements in these watches often lack certain features that were added from late 1960 onwards, such as the Coil Lead Retaining Plate (part #190).

Accutron 214 - Electric Watches
The World's First Electronic Timepiece In any serious discussion of 20th century technology, the Accutron 214 should be acknowledged as an American icon. The 214 project was begun by Bulova at a time when America felt threatened by Russian advances in technology.

The Vintage Technology Association
The 214 index wheel is only 95/1000 of an inch in diameter (2.41mm), and has 300 teeth! The coil form has 2 coils that each use about 60 meters of 0.015mm diameter copper magnet wire at about 8100 turns, with approximately 25% of one coil used for the phase sensing coil. The phase sensing coil controls the pulse of current to the drive coils.

I even found the original Accutron218 Service Manual on the internet – you can see a detailed description of the parts and their function in there. Time to check the coils – they tend to be the main source of electrical problems. Apparently, the transistor, capacitor and resistor rarely cause problems.

Fashion with Function Step into the fascinating world of watches. From the early "trench watches" of World War I to some of today's elegant diamond-studded cocktail watches, Vintage Wristwatches will entertain and educate you about these small works of art that have stood the test of time. Whether novice or seasoned collector, you'll enjoy the rich histories of American and European manufacturers past and present. Original newspaper and magazine advertisements complement more than 1,200 photographs of collectible wristwatches, while brief descriptions include values recently commanded at auction. In addition, you'll find: • A glossary of watch terminology commonly used among collectors • Tutorials for identifying wristwatches • Factors to consider when determining a wristwatch's value

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals July - December)

This volume contains a practical guide to repairing watches as a hobby, designed to furnish the novice enthusiast with an elementary understanding of watches that will enable them to clean them and make minor repairs. Written in simple, concise language and full of handy tips and useful diagrams, this text is ideal for those with an interest in amateur watch maintenance, and makes for a great addition to collections of allied literature. The chapters of this book include: How a Watch Works; Tools and How to Use Them; How to Take Down, Clean, and Reassemble a Watch; Common Ailments of a Watch... and more. This antiquarian book is being republished now complete with a new introduction on the history of clocks and watches.

We cannot simply listen to our urban past. Yet we encounter a rich cultural heritage of city sounds presented in text, radio and film. How can such > staged sounds < express the changing identities of cities? This volume presents a collection of studies on the staging of Amsterdam, Berlin and London soundscapes in historical documents, radio plays and films, and offers insights into themes such as film sound theory and museum audio guides. In doing so, this book puts contemporary controversies on urban sound in historical perspective, and contextualises iconic presentations of cities. It addresses academics, students, and museum workers alike. With contributions by Jasper Aalbers, Karin Bijsterveld, Carolyn Birdsall, Ross Brown, Andrew Crisell, Andress Fickers, Annelies Jacobs, Evi Karathanasopoulou, Patricia Pisters, Holger Schulte, Mark M. Smith and Jonathan Sterne.
