The Apologetics Study Bible reveals flaws in today's bizarre world-views while it helps you grasp the depth of biblical insight on each and every issue. More than 100 articles relate biblical truth to science, history, archaeology, psychology, philosophy, and other critical subjects. Strategically placed alongside the text of Scripture, this expert commentary includes: "How Does Christianity Relate to Hinduism?" by former Hindu Ravi Zacharias; "Is There Evidence for Life After Death?" by Christian Research Institute founder Hank Hanegraaff; "Evolution: Fact or Fantasy?" by Phillip E. Johnson, author of Darwin on Trial; "How Should a Christian Relate to Culture?" by Prison Fellowship founder and president Chuck Colson; "Are Jesus' Claims Unique Among the Religions of the World?" by Liberty University professor Gary Habermas; "Does the Design Argument Show There Is a God?" by philosopher William Dembski; "How Apologetics Changed My Life!" by best-selling author Lee Strobel. Profiles of key historic defenders of the faith like Justin Martyr, Irenaeus, Anselm, Augustine, Joseph Butler, William Paley, Blaise Pascal, and C. S. Lewis highlight the clear-headed thinking Christians through the centuries have brought to bear on objections to faith. A generous helping of study notes clarifies the biblical worldview demonstrated in Scripture. The text is the remarkably accurate and inviting Holman Christian Standard Bible translation. And features like book introductions, end-of-verse cross references, topical subheads, the words of Christ in red, and a 72-page concordance make it simple to get the most from your Bible study time. "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

A rant-ish memoir by the veteran stand-up comedian and former cohost of That Metal Show, with a foreword by Jim Norton Twitter Trolls. Facebook Freaks. Instagram Exhibitionists. These are just a few of the creatures our technology-obsessed culture has spawned in its quest to simplify our lives. The madness is so universal now that everyone has dealt with it. You log in to Facebook, read a stupid post, and immediately want to tell your "friend" to go have relations with himself. Sure, social media may keep us connected, but it is a breeding ground for idiots, and these idiots have crowd-sourced a storm of useless information, corny jokes, and douchebag drama that's wasting our time and screwing with our peace of mind. Thankfully, popular comedian and television host Jim Florentine has a solution for those of us on the verge of bashing our iPhones to bits. In Everybody Is Awful, Florentine attacks awful people and awful situations with the same biting satire and cringe-worthy humor that made him famous on television shows like Crank Yankers, Meet the Creeps, and That Metal Show. Along the way, Everybody Is Awful takes readers through the author's formative years, a time filled with rebellion and horrible behavior, to the crazy early days of his career as a stand-up comedian. Florentine also recounts how he developed an obsession with pranks that morphed into his uniquely vigilante style of comedy and made him one of the most legendary prank

callers of all time. Florentine excels at channeling the core rage we all feel at the seemingly small annoyances of life, and his fans love the cathartic experience of his hilarious ranting and raving, a tradition continued in Everybody Is Awful. Acting as a de facto therapist, Florentine diagnoses awful behavior, shames awful people, and offers comedic takes on how to reclaim our lives from it all.

Tells the life story of the marine animal rights activist, including his personal life, his cofounding Greenpeace at age eighteen, and his decision to move to more aggressive tactics to protect the ocean's creatures.
