ethically, render high-quality medical care to their patients, and submit proper claims for payment. Society places enormous trust in physicians, and rightly so. Trust is at the core of the physician-patient relationship. When our health is at its most vulnerable, we rely on physicians to use their expert medical training to put us on the road to a healthy recovery. The Federal Government also places enormous trust in physicians. Medicare, Medicaid, and other Federal health care programs rely on physicians' medical judgment to treat beneficiaries with appropriate services. When reimbursing

physicians and hospitals for services provided to program beneficiaries, the Federal Government relies on physicians to submit accurate and truthful claims information. The presence of some dishonest health care providers who exploit the health care system for illegal personal gain has created the need for laws that combat fraud and abuse and ensure appropriate quality medical care. This brochure assists physicians in understanding how to comply with these Federal laws by identifying "red flags" that could lead to potential liability in law enforcement and administrative

actions. The information is organized around three types of relationships that physicians frequently encounter in their careers: I. Relationships with payers, II. Relationships with fellow physicians and other providers, and III. Relationships with vendors. The key issues addressed in this brochure are relevant to all physicians, regardless of specialty or practice setting.

Medicare's size and complexity make it vulnerable to fraud, waste, and abuse. Fraud represents intentional acts of deception with knowledge that the action or representation

could result in an inappropriate gain, while abuse represents actions inconsistent with acceptable bus. or med. practices. Waste, which includes inaccurate payments for services, also occurs in the Medicare program. In 2009, the Centers for Medicare and Medicaid Services (CMS) estimated billions of dollars in improper payments in the Medicare program. This statement focuses on challenges facing CMS and selected key strategies that are particularly important to helping prevent fraud, waste, and abuse, and ultimately to reducing improper payments.
