"Fashion by Design explains how the elements and principles of design relate to fashion, based on the philosophy of the Bauhaus Experiment of the 20s and 30s, which is the foundation for art education in the United States. The book is structured into three parts: the stages of the design process (inspiration, identification, conceptualization, exploration/refinement, definition/modeling, communication, and production); physical elements (such as line, shape, form, space, texture, light, pattern, color, and value); and theoretical principles (like balance, emphasis, rhythm, proportion, and unity) of design. This is reinforced by fashion designer profiles and illustrations covering art, architecture, and fashion. The book aims to improve the designer's eye for creating fashion and related art forms; to identify terminology used in the communication of fashion; and to show how other factors, such as the human form,

All recent developments of nitrides and of their technology are gathered here in a single book, with chapters written by world leaders in the field.

Growing up near the Sabine, journalist Wes Ferguson, like most East Texans, steered clear of its murky, debris-filled waters, where alligators lived in the backwater sloughs and an occasional body was pulled from some out-of-the-way crossing. The Sabine held a reputation as a haunt for a handful of hunters and loggers, more than a few water moccasins, swarms of mosquitoes, and the occasional black bear lumbering through swamp oak and cypress knees. But when Ferguson set out to do a series of newspaper stories on the upper portion of the river, he and photographer Jacob Croft Botter were entranced by the river's subtle beauty and the solitude they found there. They came to admire the self-described "river rats" who hunted, fished, and swapped stories along the muddy water—plain folk who love the Sabine as much as Hill Country vacationers love the clear waters of the Guadalupe. Determined to travel the rest of the river, Ferguson and Botter loaded their gear and launched into the stretch of river that charts the line between the states and ends at the Gulf of Mexico.

From the bestselling author of *The Tuscan Child* comes a beautiful and heart-rending novel of a woman's love and sacrifice during the First World War. As the Great War continues to take its toll, headstrong twenty-one-year-old Emily Bryce is determined to contribute to the war effort. She is convinced by a cheeky and handsome Australian pilot that she can do more, and it is not long before she falls in love with him and accepts his proposal of marriage. When he is sent back to the front, Emily volunteers as a "land girl," tending to the neglected grounds of a large Devonshire estate. It's here that Emily discovers the long-forgotten journals of a medicine woman who devoted her life to her herbal garden. The journals inspire Emily, and in the wake of devastating news, they are her saving grace. Emily's lover has not only died a hero but has left her terrified--and with child. Since no one knows that Emily was never married, she adopts the charade of a war widow. As Emily learns more about the volatile power of healing with herbs, the found journals will bring her to the brink of disaster, but may open a path to her destiny.
