This comprehensive book and CD-ROM learning package is designed for the oncology nurse preparing for certification and/or recertification. The text is organized according to the eight areas tested on the Oncology Certification Exam. The Fourth Edition is completely updated with new questions and revised to reflect changes that have been made to the OCN exam. The companion CD-ROM includes practice questions that can be rearranged and customized to create a new exam over and over.

Breast Care Certification Review, Second Edition is the ultimate learning package to help prepare oncology nurses become certified in caring for patients with breast cancer. It provides numerous practice questions with answer rationales making it the essential guide for nurses planning to sit for the Certified Breast Care Nurse (CBCN) exam.

Newly revised and updated second edition provides an in-depth review of general and oncology nursing management principles to guide the practice and development of nurse managers involved with cancer care.

Like getting 7 books in 1, MDSBY'S ONCOLOGY NURSING ADVISOR provides quick access to essential information on a wide range of cancer topics, including types of cancer, treatment options, symptom management, palliative care, and patient teaching. Its user-friendly layout and straightforward coverage make it ideal for use in any clinical setting, offering authoritative guidance to help you provide the best possible oncology nursing care. Detailed descriptions of over 50 major cancer types provide essential information on incidence, etiology and risk factors, signs and symptoms, diagnostic workup, histology, staging, treatment, prognosis, and prevention. Coverage of cancer management principles outlines a wide range of treatment and pharmacologic modalities, including surgery, chemotherapy, radiation therapy, hormonal therapy, biological response modifiers, and complementary and alternative therapies. Symptom management guidelines provide in-depth coverage of pathophysiology, assessment tools, lab and diagnostic tests, differential diagnoses, interventions, follow up care, and resources for over 30 common symptoms associated with cancer and cancer treatments. Essential information on many oncologic emergencies and emergent issues prepares you to respond quickly to structural, metabolic, and hematologic emergencies. Helpful patient teaching resources include more than 25 reproducible patient teaching handouts. An entire section on palliative care and end-of-life issues offers helpful guidelines for dealing with topics related to hospice care, communication in palliative care, the final hours of the cancer patient, ethical considerations, and loss, grief, and bereavement. Serves as a great study tool for the oncology nursing certification exam..

"Nursing Patients with Cancer: Principles and Practice is a major new text: a comprehensive evidence-based source book that provides a detailed foundation for adult cancer nursing. It explains the essential social and scientific basis of modern cancer management, and equips nurses with the key skills and knowledge required to work in cancer care teams. The content is based upon assessment and intervention of patient and family needs, and aims to prepare nurses to work with cancer patients and their families across a range of settings." -back cover.
