Harvest losses are those caused by the combine. Some harvest loss is unavoidable, but proper combine adjustment and operation and catching the crop early can minimize these losses. 1. You can measure field losses by counting the kernels or seed left in the field after harvest. This is normally done by counting the kernels or seed in a 10-square-foot area across the swath width of the combine ...

CASE IH 8250 Demo- Welker Harvest 19. Millennial Farmer. So this combine's got the new, I don't even know what you call it. It's the auto everything mode. It's the Millennial mode. Must be a millennial mode combine. It controls everything on the go by my understanding. Cause I'm not really having to do much here. It's doing the work. Looks like it will control the threshing speed ...

~~AFS Harvest Command | Case IH~~

In 2018, the 250 Series Axial-Flow combine range incorporates the latest Case IH automated harvesting technology, AFS Harvest Command™. Available as an option, AFS Harvest Command™ is a self-contained system which communicates with all key combine elements and optimises the combine settings according to one of four chosen strategies to deliver maximum capacity in any harvesting condition.
