Structure of Chinese grammar. Basic sentence structure: (attribute) subject + [adverbial] predicate <complement> + (attribute) object. The basic parts of a Chinese sentence include three elements: subject, predicate and object. Even though a Chinese sentence includes three basic elements, it does not necessarily have all the three elements. In Chinese, a sentence can have two or three elements, but a sentence must have a subject and a predicate.

This blog is an attempt to share what I have pieced together myself so far to help new learners look at Chinese grammar through English grammar concepts. In the process of writing this, I am hoping to reinforce what I have already learned so far, engage other learners, both ahead and behind me, in meaningful discussions, and ultimately create a community for Chinese learners of all levels.

chinese grammar | Walhallavagen

The Chinese language has a number of characters which, when added to end of various nouns, verbs or adjectives, can form a noun indicating a person. For example, the character 人 can be placed after the noun 美国 ('America') to make the noun 美国人 ('an American') while the character 画 can be suffixed to the noun 画 ('a painting') to make the word 画家 ('a painter').

Welcome to "The Path to Chinese Characters" (let this be for a while before anything better comes up)! There are lots of people who have a strong desire to learn Chinese as their second language. According to my findings, the Chinese learning blogs and websites focus more on pinyin (a concept we will cover later in the learning) other than how to actually write the characters.
