Thirteen Colonies - Wikipedia

The United States of America was formed by the association of 13 British North American colonies, arrayed along the Atlantic coast of North America. During the 17th and early 18th centuries, the colonies had developed traditions of popular self-government, while enjoying the benign neglect of a Britain, preoccupied by civil war and other problems. After the conclusion of the world war, known ...

Introduces the letters of the alphabet through the antics of various animals from Arnie Alligator to a zany zebra.

Bestselling author Lauren Tarshis tackles the American Revolution in this latest installment of the groundbreaking, New York Times bestselling I Survived series.

A multicultural, multinational history of colonial America from the Pulitzer Prize-winning author of *The Internal Enemy* and *American Revolutions*. In the first volume in the Penguin History of the United States, edited by Eric Foner, Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America, from the native inhabitants from millennia past, through the decades of Western colonization and conquest, and across the entire continent, all the way to the Pacific coast. Transcending the usual Anglocentric version of our colonial past, he recovers the importance of Native American tribes, African slaves, and the rival empires of France, Spain, the Netherlands, and even Russia in the colonization of North America. Moving beyond the Atlantic seaboard to examine the entire continent, *American Colonies* reveals a pivotal period in the global interaction of peoples, cultures, plants, animals, and microbes. In a vivid narrative, Taylor draws upon cutting-edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery, opportunity and loss. "Formidable . . . provokes us to contemplate the ways in which residents of North America have dealt with diversity." -The New York Times Book Review

The successful 1776 revolt against British rule in North America has been hailed almost universally as a great step forward for humanity. But the Africans then living in the colonies overwhelmingly sided with the British. In this trailblazing book, Gerald Horne shows that in the prelude to 1776, the abolition of slavery seemed all but inevitable in London, delighting Africans as much as it outraged slaveholders, and sparking the colonial revolt. Prior to 1776, anti-slavery sentiments were deepening throughout Britain and in the Caribbean, rebellious Africans were in revolt. For European colonists in America, the major threat to their security was a foreign invasion combined with an insurrection of the enslaved. It was a real and threatening possibility that London would impose abolition throughout the colonies—a possibility the founding

fathers feared would bring slave rebellions to their shores. To forestall it, they went to war. The so-called Revolutionary War, Horne writes, was in part a counter-revolution, a conservative movement that the founding fathers fought in order to preserve their right to enslave others. The Counter-Revolution of 1776 brings us to a radical new understanding of the traditional heroic creation myth of the United States.
