Cubase has integrated surround sound features with support for several formats. This support goes all the way through the audio path: all audio-related channels (i. e. audio and instrument tracks as well as group channels) and busses can handle multi-channel speaker configurations. A channel in the MixConsole can either carry complete surround mixes, or an individual speaker channel which is ...

Many of the default key commands in Cubase use modifier keys, some of which are different depending on the operating system. For example, the default key command for Undo is [Ctrl]-[Z] on Windows and [Command]-[Z] on Mac OS X. When key commands with modifier keys are described in this manual, they are
