Starting with the publication of their seminal bestseller, *Future Shock*, Alvin and Heidi Toffler have given millions of readers new ways to think about personal life in today's high-speed world with its constantly changing, seemingly random impacts on our businesses, governments, families and daily lives. Now, writing with the same rare grasp and clarity that made their earlier books classics, the Tofflers turn their attention to the revolution in wealth now sweeping the planet. And once again, they provide a penetrating, coherent way to make sense of the seemingly senseless. *Revolutionary Wealth* is about how tomorrow's wealth will be created, and who will get it and how. But twenty-first-century wealth, according to the Tofflers, is not just about money, and cannot be understood in terms of industrial-age economics. Thus they write here about everything from education and child rearing to Hollywood and China, from everyday truth and misconceptions to what they call our "third job"—the unnoticed work we do without pay for some of the biggest corporations in our country. They show the hidden connections between extreme sports, chocolate chip cookies, Linux software and the "surplus complexity" in our lives as society wobbles back and forth between depressing decadence and a hopeful post-decadence. In their earlier work, the Tofflers coined the word "prosumer" for people who consume what they themselves produce. In *Revolutionary Wealth* they expand the concept to reveal how many of our activities—whether parenting or volunteering, blogging, painting our house, improving our diet, organizing a neighborhood council or even "mashing" music—pump "free lunch" from the "hidden" non-money economy into the

money economy that economists track. Prosuming, they forecast, is about to explode and compel radical changes in the way we measure, make and manipulate wealth. Blazing with fresh ideas, *Revolutionary Wealth* provides readers with powerful new tools for thinking about—and preparing for—their future.

Can a woman ever really know herself if she doesn't know her mother? From the author of the smash-hit bestseller *Firefly Lane* and *True Colors* comes Kristin Hannah's powerful, heartbreaking novel that illuminates the intricate mother-daughter bond and explores the enduring links between the present and the past. Meredith and Nina Whitson are as different as sisters can be. One stayed at home to raise her children and manage the family apple orchard; the other followed a dream and traveled the world to become a famous photojournalist. But when their beloved father falls ill, Meredith and Nina find themselves together again, standing alongside their cold, disapproving mother, Anya, who even now, offers no comfort to her daughters. As children, the only connection between them was the Russian fairy tale Anya sometimes told the girls at night. On his deathbed, their father extracts a promise from the women in his life: the fairy tale will be told one last time—and all the way to the end. Thus begins an unexpected journey into the truth of Anya's life in war-torn Leningrad, more than five decades ago. Alternating between the past and present, Meredith and Nina will finally hear the singular, harrowing story of their mother's life, and what they learn is a secret so terrible and terrifying that it will shake the very foundation of their family and change who they believe they are.

"Juliet Young has always written letters to her mother, a world famous photojournalist--even after her mother's death, she

leaves letters at her grave. When Declan finds a haunting letter left beside a grave, he can't resist the urge to write back. Soon, he is sharing his pain with a perfect stranger. When real life interferes with their secret life of letters, Juliet and Declan discover truths that might tear them apart"--

Society is under siege – under attack on two fronts: from the global frontier-land where old structures and rules do not hold and new ones are slow to take shape, and from the fluid, undefined domain of life politics. The space between these two fronts, until recently ruled by the sovereign nation-state and identified by social scientists as 'society' is ever more difficult to conceive of as a self-enclosed entity. And this confronts the established wisdom of the social sciences with a new challenge: sovereignty and power are becoming separated from the politics of the territorial nation-state but are not becoming institutionalized in a new space. What are the consequences of this profound transformation of social life? What kind of world will it create for the twenty-first century? This remarkable book – by one of the most original social thinkers writing today – attempts to trace this transformation and to assess its consequences for the life conditions of ordinary individuals. The first part of the book is devoted to the new global arena in which, thanks to the powerful forces of globalization, there is no 'outside', no secluded place to which one can retreat and hide away, and where the territorial wars of the past have given way to a new breed of 'reconnaissance wars'. The second part deals with settings in which life politics has taken hold and flourished. Bauman argues that the great challenge facing us today is whether we can find new ways to reforge the human diversity that is our fate into the vocation of human solidarity.

A “dissident of the gender-sex binary system” reflects on

gender transitioning and political and cultural transitions in technoscientific capitalism. Uranus, the frozen giant, is the coldest planet in the solar system as well as a deity in Greek mythology. It is also the inspiration for uranism, a concept coined by the writer Karl Heinrich Ulrich in 1864 to define the “third sex” and the rights of those who “love differently.” Following Ulrich, Paul B. Preciado dreams of an apartment on Uranus where he might live beyond existing power, gender and racial strictures invented by modernity. “My trans condition is a new form of uranism,” he writes. “I am not a man. I am not a woman. I am not heterosexual. I am not homosexual. I am not bisexual. I am a dissident of the gender-sex binary system. I am the multiplicity of the cosmos trapped in a binary political and epistemological system, shouting in front of you. I am a uranist confined inside the limits of technoscientific capitalism.” This book recounts Preciado's transformation from Beatriz into Paul B., but it is not only an account of gender transitioning. Preciado also considers political, cultural, and sexual transition, reflecting on issues that range from the rise of neo-fascism in Europe to the technological appropriation of the uterus, from the harassment of trans children to the role museums might play in the cultural revolution to come. *An Apartment on Uranus* is a bold, transgressive, and necessary book.

Almost as old as the idea of the library is the urge to destroy it. Author Lucien X. Polastron traces the history of this destruction, examining the causes for these disasters, the treasures that have been lost, and where the surviving books, if any, have ended up. Books on Fire received the 2004 Société des Gens de Lettres Prize for Nonfiction/History in Paris.
