Economics is the nexus and engine that runs society, affecting societal well-being, raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly. Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world. From a household budget to international trade, economics ranges from the micro- to the macro-level. It relates to a breadth of social science disciplines that help

describe the content of the proposed encyclopedia, which will explicitly approach economics through varied disciplinary lenses. Although there are encyclopedias of covering economics (especially classic economic theory and history), the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world, contemporary issues, and society. Features: 4 volumes with approximately 800 signed articles ranging from 1,000 to 5,000 words each are presented in a choice of print or electronic editions Organized A-to-Z with a thematic Reader's Guide in the front matter groups related entries Articles conclude with References & Future Readings to guide students to the next step on their research journeys Cross-references between and among articles combine with a thorough Index and the

Ourselves. Using a very personal approach, he offers practical guidance to help others avoid the anguish he has endured. An Academy and Tony Award nominee and a 2007 recipient of Golden Globe, SAG, and Television Critics Association Awards for best actor in a comedy, Alec Baldwin is one of the best-known, most successful actors in the world. His relationship with Kim Basinger, the Academy Award-winning actress, lasted nearly a decade. They have a daughter named Ireland, and for a time, theirs seemed to be the model of a successful Hollywood marriage. But in 2000 they separated and in 2002 divorced. Their split---specifically the custody battle surrounding Ireland---would be the subject of media attention for years to come. In his own life and others', Baldwin has seen the heavy

toll that divorce can take--psychologically, emotionally, and financially. He has been extensively involved in divorce litigation, and he has witnessed the way that noncustodial parents, especially fathers, are often forced to abandon hopes of equitable rights when it comes to their children. He makes a powerful case for reexamining and changing the way divorce and child custody is decided in this country and levels a scathing attack at what he calls the "family law industry." When it comes to his experiences with judges, court-appointed therapists, and lawyers, Baldwin pulls no punches. He casts a light on his own divorce and the way the current family law system affected him, his ex-wife, and his daughter, as well as many other families. This is an important, informative, and deeply felt book on a contentious

Fragments of a Paper in Hume's Handwriting, Describing the Descent on the Coast of Brittany, in 1746, and the Causes of Its Failure

Books Paperback 2012 Author Bradley A

In this study, John Kekes develops the view that good lives depend on maintaining a balance between one's moral tradition and individuality. Our moral tradition provides the forms of good lives and the permissible ways of trying to achieve them. But to do so, the author argues, we must grow in self-knowledge and self-control to make our characters suitable for realizing our aspirations. In addressing general readers as well as scholars, Kekes makes these philosophical views concrete by drawing on a rich variety of literary sources, including, among others, the works of Sophocles,

Henry James, Tolstoy, and Edith Wharton. The first half of the work concentrates on social morality, establishing the conditions all good lives must meet. The second discusses personal morality, the sphere of individuality. Its development enables us to discover what is important to us and how we can fit our personal aspirations into the forms of life our moral tradition provides. Kekes's argument derives its inspiration from Aristotle's objectivism, Hume's emphasis on custom and feeling, and Mill's concentration on individuals and their experiments in living. This book is a nontechnical yet closely reasoned attempt to provide a contemporary answer to the age-old question of how to live well.
