Estimated Useful Lives of Depreciable Hospital Assets ...

Recovery periods are the anticipated useful lifespan of a fixed asset. For example, cars have a five-year recovery period because the IRS anticipates that they'll have a useful lifespan of five years. While the car will probably run longer than that, you're not likely to continue using that car for business purposes after the first five years.

Calculating the Useful Life of a Fixed Asset - dummies

The MACRS Asset Life table is derived from Revenue Procedure 87-56 1987-2 CB 674. The table specifies asset lives for property subject to depreciation under the general depreciation system provided in section 168(a) of the IRC or the alternative depreciation system provided in section 168(g).
