More law students than ever before come to law school having been diagnosed with a learning disability. The purpose of this book is to provide research-based learning strategies for law students who learn differently. If you are a student who has been diagnosed with a learning disability or if you simply have a unique learning style, you may need to outline differently, read cases differently, and approach law school in a more active, engaged and efficient manner. This book offers learning strategies grounded in empirical research to help law students who learn differently maximize their academic success.

This handbook for elementary and secondary school principals contains several chapters on topics important to building level administrators. Each chapter summarizes relevant state and federal court decisions and statutes, concluding with recommendations for practice. The handbook is divided into four sections: students and the law, special education and the law, teachers and the law, and school and the law. The first section contains seven chapters on topics covering the First (expression), Fourth (search and seizure), and Fourteenth (procedural and substantive due process) Amendments; student discipline; child abuse; student-to-student sexual harassment; and student records. The

description of the law that regulates public K-12 education in the United States and suggest legal and policy changes for the future. Chapters cover an exceptionally wide range of topics, from virtual schooling to civil rights, student privacy and safety to education federalism, and school choice to special education. Several foundational chapters present a synthesis of a general area of law for those who seek an introductory text, while dozens of other chapters build on those foundations, diving into various topics in a nuanced way that will be valuable for those who seek to deepen or re-frame their knowledge of specific issues. Throughout the volume, and especially in the last section, the authors also look to the future and thus
