Single cam 410 is totally different engine than twin cam 450, so piston doesn't work. There is a high compression race piston available, it was stock on '01 TE400. It makes more power, but increases engine braking, makes the power delivery more abrupt and make starting harder.

Husqvarna Motorcycle: TE 610e Other Motorcycles: Honda CBR1100xx, Yamaha TZR125 . Fair dues to ya Nomad! I bought a 99 TE610e a few months ago as a non-runner. It had no spark too. I too checked all the major components and could find nothing amiss. There was some gunthering done to the pickup coil so I replaced it. Still no spark. The coil came without telling me which wire joins with which ...

"This Husqvarna 410 doesn't go off like a .410 calibre..." Written on: 10/01/2008. This Husqvarna 410 doesn't go off like a .410 calibre shotgun, rather the power delivery is very smooth, with plenty of revs all the way to the willing top-end. It's very similar to the Husaberg in that respect.
