This course book follows an approach that supports the new 2007 syllabus (to be first examined in 2009) while including the wider aims of the IB through connections to TOK, international-mindedness and the IB learner profile. It has been written by a former chief examiner for IB Diploma Programme Biology and has been extensively reviewed by teachers, consultants and the IB. With features and activities that encourage active learning and critical thinking, students will find this book stimulating and engaging.

Thorough and engaging, this new book has been specifically developed for the 2011 English A: Literature syllabus at both SL and HL. With activities, student model answers and examiner commentaries, it offers a wealth of material to support students in every aspect of the new course.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.
