The sixty-three-year-old novelist's latest work, In the Beauty of the Lilies, spans eight decades, and on this (for Updike) unusually broad canvas it paints a portrait of four generations of an American family and their struggles with the decline of religion.

The Algorithmic Beauty of Plants is a book by Przemyslaw Prusinkiewicz and Aristid Lindenmayer. It's notable as it is the first comprehensive volume on the computer simulation of certain patterns in nature found in plant development (). The book is no longer in print but is available free online.

In the Beauty of the Lilies begins in 1910 and traces God's relation to four generations of American seekers, beginning with Clarence Wilmot, a clergyman in Paterson, New Jersey. He loses his faith but finds solace at the movies, respite from "the bleak facts of life, his life, gutted by God's withdrawal." His son, Teddy, becomes a mailman who retreats from American exceptionalism, religious and otherwise, into a life of studied ordinariness. Teddy has a daughter, Esther, who becomes a movie star, an object of worship, an All-American goddess. Her neglected son, Clark, is possessed of a native Christian fervor that brings the story full circle: in the late 1980s he joins a Colorado sect called the Temple, a handful of "God's elect" hastening the day of reckoning. In following the Wilmots' collective search for transcendence, John Updike pulls one wandering thread from the tapestry of the American Century and writes perhaps the greatest of his later novels.

Here is the story of a 39-year old man who faces some major problems in his personal life. He encounters a courageous and insightful young woman with whom he falls in love. He is led into the discovery of his own spiritual heritage through a special mentor from beyond, a man named Sol.

Fans of New York Times bestselling authors Samantha Young, Sylvia Day, and E. L. James won't want to miss this modern---and deliciously wicked---take on a classic fairy tale . . . She never should have come here. Twice a week, Lily Moore comes to work for me, stealing my breath with her light and beauty and sweetness. She doesn't know the dangerous path she's on. All she knows is that I am a reclusive artist living on a crumbling estate. That I am scarred, broken by life. A beast . . . Lily ignites a hunger unlike anything I've known, one that could shatter the isolated world I live in. Even as I see the same longing for me in her oh-so-blue eyes, I know she belongs to another---one who does not deserve her. But it's just a matter of time before the tension between us breaks. For this beast will have what he desires. To hell with the consequences. This is my world . . . and I will claim my beauty.

Uses a question and answer format to explain to girls what puberty will be like and how they can use their faith in God to get through such a difficult time.

traces one girl's migration from war to peace, loss to loss, home to home. Firuzeh and her brother Nour are children of fire, born in an Afghanistan fractured by war. When their parents, their Atay and Abay, decide to leave, they spin fairy tales of their destination, the mythical land and opportunities of Australia. As the family journeys from Pakistan to Indonesia to Nauru, heading toward a hope of home, they must rely on fragile and temporary shelters, strangers both mercenary and kind, and friends who vanish as quickly as they're found. When they arrive in Australia, what seemed like a stable shore gives way to treacherous currents. Neighbors, classmates, and the government seek their own ends, indifferent to the family's fate. For Firuzeh, her fantasy worlds provide some relief, but as her family and home splinter, she must surface from these imaginings and find a new way.
