There are 3 connectors lns of rad' and four wire bundles two in each harness: The grey black connector (seems to come from where the ecu is) and is paired with the black connector which goes/comes from the large harness which goes to the back of the truck, there is no wire 1175 on this connector. One of the grey connector pairs (seems to come from where the ecu is) and goes/comes into the smaller harness, wire 1175 is on both of the connectors.
