In the first book to argue for the benefits of boredom, Peter Toohey dispels the myth that it's simply a childish emotion or

an existential malaise like Jean-Paul Sartre's nausea. He shows how boredom is, in fact, one of our most common and constructive emotions and is an essential part of the human experience. This informative and entertaining investigation of boredom--what it is and what it isn't, its uses and its dangers--spans more than 3,000 years of history and takes readers through fascinating neurological and psychological theories of emotion, as well as recent scientific investigations, to illustrate its role in our lives. There are Australian aboriginals and bored Romans, Jeffrey Archer and caged cockatoos, Camus and the early Christians, Durer and Degas. Toohey also explores the important role that boredom plays in popular and highbrow culture and how over the centuries it has proven to be a stimulus for art and literature. Toohey shows that boredom is a universal emotion

of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.
