The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

For Davis Moore is a fertility doctor, dealing with cutting-edge genetic reproductive techniques. It's a controversial and dangerous occupation: Moore has already been the object of a fanatic's assassination attempt. "You can't truly understand the country you're living in without reading Williamson." —Rich Lowry, *National Review* "His observations on American culture, history, and politics capture the moment we're in—and where we are going."

—Dana Perino, *Fox News* An Appalachian economy that uses cases of Pepsi as money. Life in a homeless camp in Austin. A young woman whose résumé reads, "Topless Chick, Uncredited." Remorselessly unsentimental, Kevin D.

Williamson is a chronicler of American underclass dysfunction unlike any other. From the hollows of Eastern Kentucky to the porn business in Las Vegas, from the casinos of Atlantic City to the heroin rehabs of New Orleans, he depicts an often brutal reality that does not fit nicely into any political narrative or comfort any partisan. Coming from the world he writes about, Williamson understands it in a way that most commentators on American politics and culture simply can't. In these sometimes savage and often hilarious essays, he takes readers on a wild tour of the wreckage of the American republic—the "white minstrel show" of right-wing grievance

politics, progressive politicians addicted to gambling revenue, the culture of passive victimhood, and the reality of permanent poverty. Unsparing yet never unsympathetic, *Big White Ghetto* provides essential insight into an enormous but forgotten segment of American society.

"Ideas move mountains, especially in turbulent times. *Lovemarks* is the product of the fertile-iconoclast mind of Kevin Roberts, CEO Worldwide of Saatchi & Saatchi. Roberts argues vociferously, and with a ton of data to support him, that traditional branding practices have become stultified. What's needed are customer Love affairs. Roberts lays out his grand scheme for mystery, magic, sensuality, and the like in his gloriously designed book *Lovemarks*." —Tom Peters

Tom Peters, one of the most influential business thinkers of all time, described the first edition of *Lovemarks: the future beyond brands* as "brilliant." He also announced it as the "Best Business Book" published in the first five years of this century. Now translated into fourteen languages, with more than 150,000 copies in print, *Lovemarks* is back in a revised edition featuring a new chapter on the peculiarly human experience of shopping. The new chapter, "Diamonds in the Mine," is an insightful collection of ideas for producers and consumers, for owners of small stores and operators of superstores. So forget making lists! Shopping, says Kevin Roberts, is an emotional event. With this as a starting point, he looks at the history of shopping and how it has changed so dramatically over the last ten years. Using the Lovemark elements of Mystery, Sensuality, and Intimacy, Roberts delves into the secrets of success that can be used to create the ultimate shopping experience.

Christopher Rowe is back and there are more puzzles, riddles, and secrets to uncover in this fourth novel of the

award-winning Blackthorn Key series. Christopher Rowe has no idea who he is. After being shipwrecked in Devonshire, he wakes up alone, his memories gone. Villagers tell him he was possessed by an unseen evil, and only became conscious after being visited by the local witch. As Christopher tries to get his bearings, he realizes his current state may be far from coincidence. Dark events have been happening in this corner of Britain—village children are disappearing without a trace. There are whispers that the malevolent ghost of the White Lady has returned to steal the children away, one by one, and consume their souls. Thankfully, friends Tom and Sally find Christopher and help him reconnect with his unique skills and talents, even as his memories elude him. But as motives and secrets are revealed, Christopher finds himself in a desperate race to reclaim his memories and discover the missing children before it's too late.

A true story of making a difference: “What does your family stand for? Read this book—it will change your life” (Daniel H. Pink). It all started when fourteen-year-old Hannah Salwen had a “eureka” moment. Seeing a homeless man in her neighborhood at the same moment when a glistening Mercedes coupe pulled up, she said “You know, Dad, if that man had a less nice car, that man there could have a meal.” Until that day, the Salwens had been caught up like so many of us in the classic American dream—providing a good life for their children, accumulating more and more stuff, doing their part but not really feeling it. So when Hannah was stopped in her tracks by this glaring disparity, her parents knew they had to do something. As a family, they made the extraordinary decision to sell their Atlanta mansion, downsize to a house half its size, and give half of the sale price to a worthy charity. What began as an outlandish scheme became a remarkable journey that transported them across the globe and well out

of their comfort zone. In the end they learned that they had the power to change a little corner of the world—and found that it changed them, too. “You feel lighter reading this book, as if the heavy weight of house and car and appliances, the need to collect these things to feel safe as a family, are lifted and replaced by something that makes much more sense.”
—Los Angeles Times

The untold story of a national trauma—NASA’s Challenger explosion—and what really happened to America’s Teacher in Space, illuminating the tragic cost of humanity setting its sight on the stars You’ve seen the pictures. You know what happened. Or do you? On January 28, 1986, NASA’s space shuttle Challenger exploded after blasting off from Cape Canaveral. Christa McAuliffe, America’s “Teacher in Space,” was instantly killed, along with the other six members of the mission. At least that’s what most of us remember. Kevin Cook tells us what really happened on that ill-fated, unforgettable day. He traces the pressures—leading from NASA to the White House—that triggered the fatal order to launch on an ice-cold Florida morning. Cook takes readers inside the shuttle for the agonizing minutes after the explosion, which the astronauts did indeed survive. He uncovers the errors and corner-cutting that led an overconfident space agency to launch a crew that had no chance to escape. But this is more than a corrective to a now-dimming memory. Centering on McAuliffe, a charmingly down-to-earth civilian on the cusp of history, *The Burning Blue* animates a colorful cast of characters: a pair of red-hot flyers at the shuttle’s controls, the second female and first Jewish astronaut, the second Black astronaut, and the first Asian American and Buddhist in space. Drawing vivid portraits of Christa and the astronauts, Cook makes readers forget the fate they’re hurtling toward. With drama, immediacy, and

shocking surprises, he reveals the human price the Challenger crew and America paid for politics, capital-P Progress, and the national dream of "reaching for the stars."
