Lotus 1-2-3 is a discontinued spreadsheet program from Lotus Software (later part of IBM). It was the IBM PC's first killer application, was hugely popular in the 1980s and contributed significantly to the success of the IBM PC.. The first spreadsheet, VisiCalc, had helped launch the Apple II as one of the earliest personal computers in business use. With IBM's entry into the market, VisiCalc ...

How to change colour options in Lotus 1-2-3 servers? Hi Randolph, I hope what you are asking is font colour if so then the steps to follow to change the font colour are this: select a file then choose preferences, then select user preferences. click on basic tab and select default fonts. At this point select your default font colour from the dropdown box. here you can also change your style and or size then click ok when your done.

How to change colour options in Lotus 1-2-3 servers ...
By default, 1-2-3, Release 2.01, uses the Lotus International Character Set (LICS) – the same character set that Release 2.0 always uses [...] you can command Release 2.01 to use the ASCII character set, just as Quattro does. [...] load the install program, and select Advanced Options [...] select TextDisplay [...] choose Universal Text Display – ASCII-No LICS [...]

Please do also take note that 1-2-3 isn't compatible with Windows DEP (Data Execution Prevention) set for all programs, unless you add an exception for 123w.exe, which will prevent most related crashes but not every one. (Double-clicking a chart title will still crash 1-2-3 for me.)

Lotus SmartSuite 9.8 : IBM : Free Download, Borrow, and ...
This happens with all of my 1-2-3 files. I am able to print fine from other software applications. The "print test page" option in the printer setup in Windows works fine. I tried deleting and reinstalling the printer driver. I also tried uninstalling the 1-2-3 software using "Uninstaller" and reinstalling the software.
