Managing Front Office Operations provides an in-depth look at management of the front office and how this department interacts with other hotel departments to create a memorable guest experience. This 14-chapter book presents a systematic approach to front office procedures by detailing the flow of business through a hotel, from the reservations process to check-out and account settlement. It also examines the various elements of effective front office management, paying particular attention to the planning and evaluation of front office operations and to human resources management. Hospitality management students and new front office employees who aspire to a management position will benefit from this practical textbook that explores every facet of hotel front office operations.

"Front Office Manager" is a 10-hour, interactive, online program that provides an overview of the organization and management of the front office. It outlines the interactions between the front office and other hotel departments that are required to create a positive guest experience. Users will love the self-paced, discovery-driven approach that puts them in control as they determine the order in which they explore each area of the hotel and click on highlighted objects to learn about each facet of front office operations. Embedded videos help to facilitate the learning process. The content of this virtual-reality styled program is based on chapter material found in the AHLEI textbook, "Managing Front Office Operations 9/e" by Michael Kasavana and Richard Brooks. The online component has 10 modules and covers over 80 topics. Student users will have six-month access to the online program. "Front Office Manager" can be packaged with the "Managing Front Office Operations 9/e" text. It can also be purchased independently of the textbook.

This Second Edition has been updated to include a brand new chapter on yield management, plus a human resources chapter refocused to cover current trends in training, employee empowerment, and reducing turnover. In addition, you'll discover how to increase efficiency with today's hospitality technology--from electronic lock to front office equipment.

"Front Office Manager" is a 10-hour, interactive, online program that provides an overview of the organization and management of the front office. If you need to know about the nature and operation of hotels as they exist today, this new book is for you. You will learn about the inner workings of a hotel, preparing readers for what to expect in the current and future hotel market. The primary focus is the front office, housekeeping, reservations and night audit departments. Other departments are discussed to provide and understanding of how these departments relate to the front office and how they operate to enhance the guest experience. An introduction of basic analyses, techniques and trends both in policy and technology are reviewed as they relate to management and the guest. The book gives newer managers, meeting planners, and others a "real world" understanding of the hotel industry balancing its past, present and future. New technologies such as the Property Management System have dramatically changed hotel operations; therefore, extensive time has been devoted to covering this technology. Additional chapters feature analysis of the physical makeup of hotels, yield management, and operational techniques. Performance measurements and analysis of what makes a truly successful hotel are discussed in detail. Finally, because hotel management is and will always be about people, chapters are devoted to both the hotel guest and hotel employee. The arrival chronology is discussed from arrival to departure.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Housekeeping is critical to the success of today's hospitality operations. The third edition of this textbook shows what it takes to direct day-to-day operations of this department, from big-picture management issues to technical details for cleaning each area.
