Most businesses still operate according to a world view that hasn't changed since the start of the Industrial Revolution. Then, natural resources were abundant and labor was the limiting factor of production. But now, there's a surplus of people, while natural capital--natural resources and the ecological systems that provide vital life-support services--is in decline and relatively expensive.

~~Natural Capitalism Creating the Next Industrial Revolution~~

Natural capitalism is a way of thinking that seeks to apply market principles to all sources of material value, most importantly natural resources. The authors have two related goals: first, to show the vast array of ecologically smart options available to businesses; second,
