Students are entered for either foundation tier (paper 01, paper 02 and paper 03) or higher tier (paper 04, paper 05 and paper 06). Key features of the OCR GCSE maths specification There are 100 marks per paper, giving OCR a large scope for awarding method marks within questions which is why it is always so important for students to show working out, especially in longer mark questions.

Mark ...

The defining principle of geology is Uniformitarianism. This states that by viewing modern processes we can determine what happened in the past. James Hutton was the first geologist to publish this postulation with his paper "The Theory of the Earth", published in 1785 and has resulted in him being viewed as the first modern geologist.
