The BBB-4 Big Blue Book of Bicycle Repair by Calvin Jones is packed with easy-to-follow, step-by-step procedures, color photos and repair tips for keeping almost any road or off-road bike running smoothly and trouble-free. Whether it's repairing a flat tire, adjusting brakes and shifting systems, truing wheels, or maintaining hub, headset and bottom bracket bearing systems, the BBB-4 has you covered. Thoroughly researched and revised, the 4th edition of the Big Blue Book contains updated photos, torque specifications and troubleshooting tables, along with new content on wheel building, electronic shifting, 12-speed and 1X drivetrains, tubeless tires, disc brakes, headset and bottom bracket standards, and more. Truly an indispensable tool and reference source for both the novice and advanced bicycle mechanic.

The No-Drop Zone contains all the information necessary for new cyclists to gain the knowledge and skills to take them from buying their first bicycle to starting their first race. Cyclists learn how to handle the bike, perform minor maintenance, select clothing and accessories, join clubs, and find events. The book also covers every aspect of riding in a group, emphasizing such specific skills as how to avoid bumping into other riders when riding in close quarters and fixing a flat quickly enough to rejoin the group. Author Patrick Brady explores the particular pleasures that come from group riding, a unique experience at once social (talking with friends while riding), exciting (descending in a group), and exhilarating (finishing a long hill). Brady also details the enormous fitness benefits of riding in a group. The No-Drop Zone has all the knowledge a cyclist needs to move to that next level of skill.

Both evocative and magical, Zanzibar offers travellers the quintessential Indian Ocean experience; palm fringed coastlines, powder- white sand, and colourful aquatic life. Passionate about detail, Chris and Susan McIntyre have carried out extensive on-the-ground research in producing this updated edition. There has been significant growth in the number of hotels, lodges and guesthouses on all three main islands since the last edition and, consequently, the accommodation listings have increased significantly: notably in Zanzibar Town (Stone Town), Matemwe, Michamvi Peninsula, and Mafia island. They visited all the accommodation listed. With almost 300 properties featured, many are newly built and the vast majority (spanning all budget levels) do not feature in any other guide on the market. Each entry has a detailed description with a strong emphasis on guiding readers to the most ethical options. Zanzibar goes into far greater depth than its competitors on the natural environment, history, culture, and sights. Few other guide books cover the islands of Pemba and Mafia in any detail and yet they are easily combined in a trip. With a focus on the environment, visitors are directed towards fair-trade shopping opportunities and sustainable marine parks. This new edition also includes a dedicated section on southern Tanzanian safaris, making this guide excellent for readers

looking for a bush and beach combination. Advice is given on how to be sensitive to the local Muslim culture. Bradt's guide is the most frequently and scrupulously updated guide available, vital for a destination with tourism growing and changing so rapidly.

Michael Marti presents a complexity management model that is based on the reasoning that product architecture determines to a considerable extent how external complexity is translated into physical products. The model demonstrates a procedure to optimize a product's architecture and is applied to several industrial products.

The world's authority on cycling provides a comprehensive guide to the sport for cyclists of all levels. The sport of cycling has experienced an exciting boom in popularity fueled by Lance Armstrong's success and recent comeback, the popularity of triathlons, rising gas prices, and the need to find a sport that lets people have some fun while they get fit. No one knows more about this boom than the pros at Bicycling magazine. For nearly 50 years, Bicycling has brought its readers the most up-to-date advice on everything from training and gear to nutrition and stories of cycling's greatest stars. Now, for the first time, Bicycling gathers its best advice in *The Big Book of Bicycling*, a must-have book that cyclists of all levels can refer to again and again for answers to all of their cycling questions. Senior editor Emily Furia and her colleagues have gathered the latest, most useful information on getting started, buying gear, maintaining both road and mountain bikes, training for speed, racing techniques, understanding the rules of the road, and much more. This evergreen book is an invaluable resource for any cyclist who wants to ride their best.
