Solving social

and emotional

challenges

shares many of

the same steps

as the

engineering

process:

# Access Free Social

Students try an approach, evaluate how it works, adjust, and try again.

On the surface, social and emotional

learning may not seem like an obvious fit for a science classroom, but scientists

rarely work  
alone and need  
to use social  
and emotional  
skills when they  
propose a  
project for  
funding or share  
their results.
