This title offers an intelligent and easy-to-digest roadmap for successfully implementing a lean and agile value chain transformation program.

Although the benefits of applying lean concepts or improving the flexibility of a value chain are clear and desperately needed in today's competitive environment, none of the current literature provides guidance on how to do this. Lean and Value Chain Management fills that gap by providing a comprehensive roadmap that shows organizations, step-by-step, how to successfully implement a lean and agile value chain transformation program. It brings together the latest advances in the field in an easy-to-

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the

real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There i detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.
