This book presents a set of tools that will aid in deciding whether a project should go ahead, be improved, or abandoned altogether by pinpointing its vulnerabilities. It offers a review of project feasibility analysis, and more critically, psychodynamic aspects that are often neglected, including how stakeholders interact. It provides a complement to the common

techniques used for analyzing technical, financial, and marketing feasibility. The goal is to identify "hidden truths" and eliminate those gray areas that jeopardize the success of a given project. The focus is on uncovering points of vulnerabilities in four key aspects of a project: People, Power, Processes, and Plan.

A collection of writings by the Writers of the Round Table, a group of writers who "write to the prompt."

This report provides information on new initiatives that federal and state agencies are using to expedite environmental reviews and includes recommendations that could help further expedite those reviews. In addition, the report includes available information that the Federal Highway Administration (FHWA) and state highway agencies (the states) have generated on the costs of environmental mitigation.
