Artscroll's Stone Edition of the Chumash is a fine work in many ways. I like the Koren fonts for Hebrew a little more and the Koren tendency to put the Arstcroll on the left instead of the right page, but the fonts for the Hebrew are easy to read and the traditional page layout is maintained.

~~(Artscroll Series ...~~

Artscroll publications, such as the Stone Editions of Tanakh (Hebrew Bible) and Chumash (Pentateuch) use many more transliterated Hebrew words than English words, compared to editions such as the Tanakh of the Jewish Publication Society. This reflects a higher use of untranslated Hebrew terminology in Haredi English usage.
