Candice Proctor can write every bit as well as her sister and I have loved both books that I've read by her. Night in Eden is one of my all time favorites, so The Bequest didn't quite live up to the brilliance of her debut novel, but it sure came close! The Bequest is set in Central City Colorado in the year 1874.

Proctor - who still writes fabulous mysteries under the name C.S. Harris - has talent, and her depictions of nineteenth century Australia are vivid and striking. Her eye for telling historical detail is unerring, which shouldn't be a surprise given she's got a Ph.D. in (European) history.
