The Urban areas planning process tends to be more complex and prone to conflict and process of disputing or arguing. The land values are higher, property ownership is more complex, and flexibility to change land uses is often more limited. It is important to acknowledge that land use planning is going through a paradigm shift across the world.

Planning Process for Urban, Rural, and Regional Contexts

Urban planning in Lagos is incredibly challenging as its population increases by over 600,000 people each year. This is the equivalent of the population of Bristol being added each year! One solution is to take advantage of the vast area of water that surrounds Lagos by creating new floating communities.
